

## mystification

she says she's mystified  
not really satisfied  
that we're democratized  
'cause she's concerned about  
our big ol' government  
and education drought  
has voters in a fix  
with information blitz  
not jumpin' in the mix  
important overtones  
from network pheromones

they have us wearing pink  
you just click on the link  
but are you smart enough  
is your guy all that tough  
do you buy all that stuff  
and are you red or blue  
no other shade will do  
you know that this is really  
nothing
